"I am Sheida Keshavarz zamanian, with approximately 4 years of professional experience in renowned architectural offices. I am a dedicated, organized individual with expertise in architectural design, graphic architecture, and visual identity. Currently, I specialize in these areas.

I am committed to taking a step towards sustainable architecture with a focus on the environment in Iran. I aim to highlight the innovative connection between architecture and the environment as a primary goal and concern in my profession. This effort assists me in achieving my professional and humanitarian objectives, enabling me to apply my experiences and expertise in the best possible way to work towards the realization of these goals."
